Third-Party Procurement Office

Mr. Rubén Lugo
Public-Private Partnerships Authority (P3A)
P3 Authority Headquarters
San Juan, Puerto Rico

Subject: Formal Notification of Award – RFP 3PPO-0314-20-TPG (Temporary Emergency Generation)

Dear Mr. Lugo,

The Third-Party Procurement Office (3PPO), acting on behalf of the Puerto Rico Electric Power Authority (PREPA), respectfully submits this official notification regarding the outcome of the competitive procurement process for RFP 3PPO-0314-20-TPG, related to the provision of up to 800 MW of Temporary Emergency Generation capacity.

We received a total of seven (7) valid proposals in response to the RFP, submitted by the following proponents, listed in alphabetical order:

- Distributed Power Solutions
- E2 Companies LLC
- Gotham Power
- Impulsadora de Proyectos Energéticos
- Javelin Infrastructure Partners
- New Fortress Energy, LLC
- Power Expectations, LLC

While the original procurement framework (as established under Section 22 of the RFP and aligned with our internal Standard Operating Procedures and the LUMA Procurement Manual) anticipated that the formal Notice of Award would be issued following contract execution, this notification is being made at this stage in response to a formal request from the Executive Director of PREPA to enable timely presentation to the Board of Directors given the emergency nature of the procurement.

Following a rigorous evaluation process—including full technical, financial, and compliance due diligence, and post-submission negotiations—the 3PPO has completed the adjudication and hereby announces the exclusive award to:

Power Expectations, LLC
For the delivery of up to 800 MW of temporary emergency generation capacity in accordance with the terms of the RFP and all applicable regulatory requirements.

This notification constitutes the formal start of the five (5) calendar day reconsideration period, during which any adversely affected proponent may submit a written request for reconsideration under the procedures outlined in Section 22 of the RFP. No late submissions will be accepted.

We respectfully request that the P3 Authority acknowledge this award notice and consider it as part of the project record under the broader Public-Private Partnership framework applicable to emergency generation projects. The 3PPO remains available to coordinate next steps as the contracting phase transitions to PREPA's management, in accordance with the OCIMP Protocol, 2 CFR Part 200, and the Federal Acquisition Regulation (FAR) standards adopted in our internal SOPs.

We reiterate our continued support in ensuring a successful execution phase and are available to assist with any further requests or clarifications required by the P3 Authority.

Respectfully,

Third-Party Procurement Office (3PPO)
